

Monday 9<sup>th</sup> December 2019

Dear Parents /Carers,

As an institution we are keen to further improve our habits and become more environmentally friendly: less wasteful and more sustainable. With this in mind, we will be carrying out a survey of the school and its 'ways' early next term. Please note, in this context, the ongoing efforts of our governing body and Matt Partridge to find a way to put solar panels on our roof and the PTA's efforts to make the Christmas Fair greener this year. Clearly we cannot teach our children about sustainability with any integrity, if we don't firstly model the right behaviours as a school.

As part of this drive and as Christmas approaches, we would like to say something about presents for staff. While we couldn't be anything other than immensely grateful for the constant generosity of our parents and while we would never presume to dictate how and what you choose to give us; we would like to reassure you that a few kind words on a recycled card would also suffice. Also know that if you do wish to buy a present and want to buy something that could also help the children, we, as staff, are always very happy to receive children's books or games for their classes.

Thank you again for your generosity,

Kind regards,  
Mr Moss
