Computing Knowledge Organiser- Year 5/6- Digital Safeguarding

Top 5 tips for keeping safe online:

1. **Be careful what you share**
   Once something is online, it's out of your control. If you don't want your parents or teachers to see it, don't post it.

2. **Don't meet people you don't know in person**
   Even if you get on with them online, you never know who they really are.

3. **Use a complex password**
   It should be hard for other people to guess your password and it's a good idea to change it regularly.

4. **Check your privacy settings**
   Check who can see what you post and whether your accounts are public or private.

5. **Talk about it**
   If you see something online that makes you upset or uncomfortable, talk to an adult you trust.

Passwords Do
- DO share your password only with your parents.
- DO create passwords with at least eight characters.
- DO use combinations of letters, numbers, and symbols.
- DO change your password regularly – at least every six months.

Passwords Don't
- DON'T give a password to anyone else – not even your friends.
- DON'T use passwords that are easy for people you know to guess, like
- your nickname or your pet's name.
- DON'T use any private information in your password.
- DON'T use a word in the dictionary as a password.

a) gRe@tjob	**Strong**	Weak
b) Luv2sw!m	**Strong**	Weak
c) anna99	Strong	**Weak**
d) June111998	Strong	**Weak**

Use Common Sense!
Passwords should NOT have **private information** in them, like your:

- Full (first and last) name
- Date of birth
- Mother's maiden name
- Street address
- School name or school address
- Credit card numbers
- Phone numbers
- Social Security number

Remember
*If something doesn't feel right, tell someone you trust.
*All social networking sites and YouTube have 'report' buttons, use them!

The 4Rs of online safety

Respect
I treat myself and others the way I like to be treated

Responsibility
I am accountable for my actions

Reasoning
I question what is real

Resilience
I get back up from tough situations

Follow the 4 Rs

Be careful what you share online

- when you choose a profile picture for a social networking website like Facebook or Twitter, avoid photos that could give people you don't know information about where you live
- check your privacy settings regularly, including on smart devices like wearables.
- think about what should be shared in public and what should be kept private
- check your location settings – some sites, apps and devices let you share your location with other users. Turning off location settings can help protect your privacy
- take care of your digital footprint.
